(A DEVELOPMENT STAGE COMPANY)

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**  
MARCH 31, 2006

1. Summary of Significant Accounting Policies

A. Organization and General Description of Business

National Healthcare Technology, Inc. ("We" or "the Company") was incorporated under the laws of the State of Colorado, on July 6, 2005. On July 19, 2005, the Company, completed the acquisition of Special Stone Surfaces, Es3, Inc., a Nevada Corporation ("Es3") pursuant to the terms of an Exchange Agreement (the "Exchange Agreement") by and among the Company, Crown Partners, Inc., a Nevada corporation and at such time, the largest stockholder of the Company ("Crown Partners"), Es3, and certain stockholders of Es3 (the "Es3 Stockholders"). Under the terms of the Exchange Agreement, the Company acquired all of the outstanding capital stock of Es3 in exchange for the issuance of 19,182,759 shares of the Company's common stock to the Es3 Stockholders, Crown Partners and certain consultants. The transactions effected by the Exchange Agreement have been accounted for as a reverse merger. This reverse merger transaction has been accounted for as a recapitalization of Es3, as Es3 is the accounting acquirer, effective July 19, 2005. As a result, the historical equity of the Company has been restated on a basis consistent with the recapitalization. In addition, the Company changed its accounting year-end from September 30 to December 31, which was Es3's accounting year-end.

Accordingly the financial statements contained in report include the operations of the Company in its new line of business. As a result of the transactions contemplated by the Exchange Agreement, the Company had one active operating subsidiary--Es3. Es3 was formed in January 2005 and began operations in March 2005 in the business of manufacturing and distributing a range of decorative stone veneers and finishes based on proprietary Liquid Stone Coatings(TM) and Authentic Stone Veneers(TM). Effective October 1, 2005, the Company sold all of its shares in Es3.

On April 3, 2006 the Board of Directors approved a change of direction for the Company, from the business of Manufacturing and distributing decorative stone veneers and finishes, to the business of oil and gas exploration and production, mineral lease purchasing and all activities associated with acquiring, operating and maintaining the assets of such operations.

B. Basis of Presentation and Organization

The accompanying unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") Form 10-QSB and Item 310 of Regulation S-B, and Generally Accepted Accounting Principles for interim financial reporting. The consolidated financial statements include the accounts of the Company. The information furnished herein reflects all adjustments consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-KSB. The results of the three month periods ended March 31, 2007 and 2006 are not necessarily indicative of the results to be expected for the full year ending December 31, 2007.

C. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined.

J. Basic and Diluted Net Earnings (loss) per Share

The Company adopted the provisions of SFAS No. 128, "Earnings Per Share" ("EPS"). SFAS No. 128 provides for the calculation of basic and diluted earnings per share. Basic EPS includes no dilution and is computed by dividing income or loss available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of securities that could share in the earnings or losses of the entity. For the periods ended March 31, 2007 and 2006 and from inception through March 31, 2007, basic and diluted loss per share are the same since the calculation of diluted per share amounts would result in an anti-dilutive calculation.

K. Recent Accounting Pronouncements

In September 2006, FASB issued SFAS 157 'Fair Value Measurements'. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This

Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The management is currently evaluating the effect of this pronouncement on financial statements.

In September 2006, FASB issued SFAS 158 'Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans--an amendment of FASB Statements No. 87, 88, 106, and 132(R)' This Statement improves financial reporting by requiring an employer to recognize the over-funded or under-funded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not-for-profit organization. This Statement also improves financial reporting by requiring an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. An employer with publicly traded equity securities is required to initially recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures as of the end of the fiscal year ending after December 15, 2006. An employer without publicly traded equity securities is required to recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures as of the end of the fiscal year ending after June 15, 2007. However, an employer without publicly traded equity securities is required to disclose the following information in the notes to financial statements for a fiscal year ending after December 15, 2006, but before June 16, 2007, unless it has applied the recognition provisions of this Statement in preparing those financial statements. The requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position is effective for fiscal years ending after December 15, 2008. The management is currently evaluating the effect of this pronouncement on financial statements.

In February 2007, FASB issued FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. FAS 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted subject to specific requirements outlined in the new Statement. Therefore, calendar-year companies may be able to adopt FAS 159 for their first quarter 2007 financial statements.

The new Statement allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. FAS 159 also establishes presentation and disclosure requirements designed to draw comparison between entities that elect different measurement attributes for similar assets and liabilities.

## 2. Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate the continuation of the Company as a going concern. The Company reported a cumulative net loss of \$41,007,321 and had a stockholder's deficit of \$6,674,948 at March 31, 2007. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and Financial Statements and notes thereto included in the Company's December 31, 2006 Form 10-KSB.

## 3. Income Taxes

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

## **Item 2. Management's Discussion and Analysis or Plan of Operation.**

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. When used in this Form 10-QSB, the words "anticipate", "estimate", "expect", "project" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions including the possibility that the Company's proposed plan of operation will fail to generate projected revenues. Additional risks, uncertainties and assumptions include, but are not limited to, the factors that we describe in the section entitled "Management's Discussion and Analysis" in the Form 10-KSB/A for the year ended December 31, 2006. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. The Company's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in the Company's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

### **General**

There was no revenue during the periods ended March 31, 2007 and March 31, 2006. Expenses in the three month period ended March 31, 2007, of \$1,862,937, were significantly less than the three month period ended March 31, 2006, \$12,239,885. The reduction is due to the non-recurring expenses incurred in 2006 related to changing the direction of the Company.

### **Plan of Operation**

On April 3, 2006, our Board of Directors approved a change of direction for the Company, from the business of manufacturing and distributing decorative stone veneers and finishes, to the business of oil and gas exploration and production, mineral lease purchasing and all activities associated with acquiring, operating and maintaining the assets of such operations. This plan of operating will include the acquiring of proven fields and the developing of these properties by commencing drilling operations. In order to maximize economies of scale and to leverage the knowledge and expertise of others, we will partner with third parties to exploit any such properties.

In conjunction with our change of direction, in April 2006, we entered into a consulting agreement with Summitt Oil and Gas, Inc. ("Summitt"), as well as other third parties, to provide business management services, and advice as it relates to the future of the company. This service shall include the drafting and preparation of business plans, operating budgets, cash flow projections and other business management services as we venture into the oil and gas business.

In April 2006 we executed an assignment of an oil and gas lease under which we acquired 100% of the leasehold rights to drill and otherwise exploit 160 acres of certain underlying oil and gas reserves located in the County of Custer, Oklahoma, which we acquired from Summitt for 677,000 restricted shares of our common stock and agreed to pay Summitt a royalty equal to 3% of the value of all oil produced and removed under the lease and the net proceeds received by us from the sale of all gas and casinghead gasoline produced and sold under the lease. The leasehold interest is not developed and accordingly not currently producing oil or gas. Upon receiving the necessary capitalization, we intend to explore the development of this field. During the quarter ended fiscal 2006, the Company issued 677,000 of its common stock to Summitt and recorded an expense of \$9,333 in connection with this agreement during the quarter.

In April 2006, we entered into a consulting agreement with BlueFin, Inc. ("BlueFin"). BlueFin has been retained to provide business development, investor relations services, and introductions to qualified funding sources, introductions to oil and gas business prospects and introductions to accredited investors. By leveraging BlueFin's resources the Company anticipates that it will be able to find sources of capital to fund its operations in the oil and gas business.

In April 2006, we also entered into an agreement with Monterosa Group Limited ("Monterossa"). Monterossa has been retained to provide services including operation administration, transaction processing and management, systems development, staff recruitment, acquisition transaction support services, and other business management services as the Company moves into the oil and gas business.

In April 2006, we also engaged Camden Holdings, Inc. ("Camden"), an entity experienced in the energy sector that will assist the Company in locating oil and gas opportunities for us. Camden's services include the drafting and preparation of business plans, operating budgets, cash flow projections and other business management services as we venture into the oil and gas business. We have also been able to leverage our relationship with Camden to obtain short-term financing as needed. Camden has also agreed to advance sums to the Company to assist in funding its operations over the short-term. As of March 31, 2007, Camden has advanced the Company the sum of \$88,682. In addition, the company also has a convertible note payable to Camden Holdings (See Notes 5).

In April 2006, we also engaged Design, Inc. ("Design"), an entity experienced in the energy sector that will assist the Company in financing the transactions introduced by Camden and our other consultants.

In July, 2006, the Company entered into a Consulting Agreement with Summitt Ventures Inc. ("SVI") for three months which required the Company to issue 2,800,000 of its common stock to SVI for services to be provided to the Company including business management services and related services. These shares were issued in August, 2006. In September, 2006, the Company entered into another agreement with SVI under the same terms and conditions as the original agreement. The Company issued 2,700,000 shares to SVI in September, 2006.

In July, 2006, the Company entered into a Consulting Agreement with Catalyst Consulting Partners, LLC to provide the Company with business consulting services in exchange for the issuance of 518,000 shares of the Company's common stock. These shares were issued during the quarter ended September 30, 2006.

In September, 2006, the Company entered into a Services Agreement with Rhone Alternative Marketing Partners ("RAMP) for marketing and public relations services in exchange for the issuance of 1,000,000 shares of the Company's common stock. These shares were issued during the quarter ended September 30, 2006.

During the quarter ended September 30, 2006, the Company compensated certain third party individuals who provided services to the Company. In August and September, 2006, 600,000 shares were issued for services. In September, 2006, an additional 740,000 shares were issued to consultants for services under the Company's 2006-1 Consultants and Employees Services Plan. This Plan was adopted in September, 2006 and reserved 3,800,000 shares of the Company's common stock to consultants and employees, which shares were registered in September, 2006. At December 31, 2006 and at March 31, 2007, 3,799,000 shares were issued under the Plan.

We believe that by changing our direction to the oil and gas markets we have improved our prospects for success due to both the current and expected future positive market conditions which we expect to exploit initially from the valuable contacts, industry expertise and business opportunities we expect to derive from Summitt, an industry experienced consulting resource, and other third party consultants.

Additionally, we intend to reincorporate the Company to a Nevada corporation ("Reincorporation"). The business purpose of the Reincorporation is to allow us to avail ourselves to Nevada corporate law. Nevada is a recognized leader in adopting and implementing comprehensive, flexible corporate laws responsive to the legal and business needs of corporations organized under its laws. The Nevada Revised Statutes is an enabling statute that is frequently revised and updated to accommodate changing business needs.

Additionally, consistent with the change of our direction into the oil and gas business, we will also change the Company name to a name in line with a company in the oil and gas business.

We anticipate that we will have to raise additional capital to fund operations over the next 12 months. To the extent that we are required to raise additional funds to acquire properties, and to cover costs of operations, we intend to do so through additional public or private offerings of debt or equity securities, including a drilling fund to raise \$5,000,000. There are no commitments or arrangements for other offerings in place, no guaranties that any such financings would be forthcoming, or as to the terms of any such financings. Any future financing may involve substantial dilution to existing investors. We have also been relying on our common stock to pay third parties for services which has resulted substantial dilution to existing investors.

#### **Estimated Funding Required During the Next Twelve Months:**

---

**Prospect Development & Seismic \$ 1,000,000 to \$ 5,000,000**

**Drilling & Development \$ 2,500,000 to \$ 5,000,000**

**Offering Costs & Expenses \$ 50,000 to \$ 50,000**

**General Corporate Expenses \$ 100,000 to \$ 150,000**

**Working Capital \$ 700,000 to \$ 1,000,000**

**Total \$ 4,350,000 to \$11,200,000**

The minimum expenditures noted above will allow us to commence with acquiring, exploring and developing properties as well as commence drilling operations. In the event that we are able to raise further funds, we will primarily expend such funds on further prospect development and seismic studies and then to fund further drilling operations. Consistent with this change of our business, effective October 1, 2005 we sold all of the capital stock of Es3 to Liquid Stone Partners. A partner holding a minority interest in Liquid Stone Partnerships is also a director of the Company. We currently have one full-time employee. We will primarily rely on outside consultants and do not currently foresee any significant changes in the number of our employees.

#### **Item 3. Controls and Procedures.**

Our Chief Executive Officer and Chief Financial Officer has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of the end of the period ended March 31, 2007, (the "Evaluation Date"). During the course of the audit for our year end December 31, 2005 in May 2006, our auditor discovered numerous errors in our financial statements in our quarterly report for the period ended September 30, 2005 as disclosed in our form 8-K/A filed on June 14, 2006. As a result of these errors, and others, we restated our form 10-QSB for the quarter ended September 30, 2005, and will restate the financial statements for the period ended June 30, 2005, in our Form 8-K/A filed on January 24, 2006. Our conclusion to restate our form 10QSB for the quarter ended September 30, 2005 and Form 8-K/A filed on January 24, 2006, has resulted in affecting our assessments regarding our controls, and that they were not effective as of the period ended December 31, 2006 and constituted material weaknesses which began after the close of the Exchange Agreement on or about July 19, 2006. As of the period covered by this report, we believe that the material weaknesses no longer exist. The material weaknesses were primarily a result of our having no controller and no qualified personnel and as a result transactions were omitted, recorded incorrectly, or recorded without support.

#### **Limitations on the Effectiveness of Internal Controls**

Disclosure controls and procedures are designed to provide reasonable assurance of an entity achieving its disclosure objectives. Our chief executive officer and chief financial officer has concluded that our disclosure controls and procedures are effective at that reasonable assurance level as of the period covered by this report. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision-making can be faulty and that breakdowns in internal control can occur because of human failures such as simple errors or mistakes or intentional circumvention of the established process.

There were no changes in the Company's internal controls over financial reporting, known to the Chief Executive Officer and Chief Financial Officer that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

In May 2006, we remedied the material weakness in internal control over financial reporting by having our Chief Executive Officer and Chief Financial Officer review in detail all adjustments affecting the issuances of our securities, and we retained an outside consultant to make accounting entries.
